

# HPV Vaccination Project ECHO Medical Clinic

Learn about best practices and evidence-based strategies for recommending, delivering, and prioritizing the HPV vaccine amidst COVID-19 through peer-to-peer case presentations and didactics taught by national leaders in HPV vaccination.

Dr. Jason Terk, MD, Pediatrician  
Cook Children's Medical Center  
Subject Matter Expert

Dr. Marcie Fisher-Borne PhD, MPH, MSW  
American Cancer Society  
Subject Matter Expert

## The HPV Vaccination ECHO provides:

- Part 4 Maintenance of Certification (MOC) Credits
- CME, CNE and ANCC credits
- Seven 1-hour monthly sessions
- 100% Web-based participation
- Collaboration, support and ongoing learning with healthcare providers
- Innovative and evidence-based practices to support vaccination rates amid COVID-19

## Sessions starting July of 2020
